Singapore is a sunny, tropical island in Southeast Asia, off the southern tip of the Malay Peninsula. Located at the crossroads of East and West, Singapore is well-positioned to reach close to 4 billion people within a 7-hour flight radius. Thus, leveraging on Singapore’s strategic location in Asia Pacific to achieve significant headways into the region.

The City blends Malay, Chinese, Arab, Indian and English cultures and religions. Our unique ethnic tapestry affords visitors a wide array of sights and our diverse culture and heritage have served up a huge number of colourful cuisines, each with its own distinctive flavour and aroma.

Singapore is much more than the sum of its numerous attractions. It’s constantly evolving, reinventing, and reimagining itself, with people who are passionate about creating new possibilities.

It’s where foodies, explorers, collectors, action seekers, culture shapers, and socialisers meet—and new experiences are created every day.
PASSPORTS & VISAS

WCRP Sea Level Conference 2022 recommends international attendees to review Singapore’s visa requirements before travelling.

Most foreigners coming into Singapore do not require a visa for entry and may be given social visit passes for up to 30 days upon their arrival in Singapore. You should have a valid passport with at least six months validity, onward or return tickets, onward facilities (such as visas or entry permits) to your next destination, and sufficient funds for your stay in Singapore.

On immigration clearance, the SG Arrival Card (SGAC) e-Service 1 should be completed before you leave your departure point. This is available electronically on the Visit Singapore Travel Guide app on the App Store or Google Play.

Alternatively, you can visit the Singapore Immigration & Checkpoints Authority website to submit your arrival information by clicking HERE. You can submit the information up to three days before your visit. Please refer to the infographic on the left for more information. You may view it separately HERE.

TRANSPORTATION

TRAVELLING WITHIN SINGAPORE

BY TRAIN
Singapore’s MRT (mass rapid transit) system is probably the fastest way to zip around the city. The extensive rail network means that most of Singapore’s key attractions are within walking distance from an MRT station. You can buy tickets for single trips, but if you intend to use the MRT and basic bus services frequently during your visit, you can buy a Singapore Tourist Pass (STP), a special EZ-Link stored-value card which will allow you unlimited travel for one day ($10), two days ($16) or three days ($20). The cards can be bought at the TransitLink Ticket Office at the MRT stations. Singapore’s trains and stations are accessible to wheel chair users and the visually impaired, as well as families with strollers.

For train network and information, click HERE.

BY TAXI
Taxis are comfortable and especially handy if you want to go to places not accessible by the bus or MRT. Cabs here are metered, but there may be surcharges depending on when, where and which company’s taxi you board. To get a rough idea of the final fare, check with the driver on the surcharges and ask for a receipt at the end of the trip. You can hail a taxi by the roadside at most places, or by queuing for one at taxi stands found at most shopping malls, hotels and tourist attractions. If you wish to book a cab, you can call a common taxi booking number, 6-DIAL CAB (6342-5222), and your call will be routed to an available taxi company’s call centre. You may also wish to download the GRAB App free to book a budget or premium taxi with ease.

You may wish to download the ComfortDelGro Taxi App HERE and GRAB App HERE.

BY BUS
Singapore’s bus system has an extensive network of routes covering most places in Singapore and is the most economical way to get around, as well as being one of the most scenic. You can pay your bus fare using an EZ-Link stored-value card or the Singapore Tourist Pass (STP), which you tap on the card reader located next to the driver as you board. Do remember to tap your card again, on the reader located at the rear exit, when you alight. You can also pay in cash but you will need to have exact change. Most buses in Singapore have air-conditioning - a welcome comfort in a tropical city.

You can use the E-Guide to get information on the bus routing.
